
Verifiable Data Registry (Blockchain, e.g., Cheqd)
Contains public key and endpoints
DIDs and DIDDocs of the participants
VC SChemas
Provides the basis of authenticity, One for each Schema and particpant pai
VC Definitions
Revocation Registry
cryptographic accumulator
(blindly) published in later revoked
Non-invoked Transition VC
Org with Excluded Transition
BPMN Middleware
SSI Wallet
issued during bootstrap
Org with Included Transition
SSI Wallet
BPMN Middleware
Verifiable Process History Cred. (VphC)
issued when previous transition happened
received if TN is accepted
issued if TN is accepted
Presentation
proposed VphC for invoked TN
NiTC for contradictory TN
VphC for prerequsite TN
Non-revocation proof
revoke if TN is finalized
Transition Initiator Org
BPMN Middleware
SSI Wallet
presented during TN invocation
presented to
Transition Reciever Org
